

Easy to replace
hardware parts
= minimal downtime

Bluefrog POS Hardware

As we know, the hospitality industry can be very fast paced and demanding, from Breakfast to Dessert each and every day; and the last thing you need to deal with, are problems with a POS system you have so much dependency with!

We understand this, which is why we have placed great emphasis on choosing the right hardware equipment suited for the hospitality industry, minimising any downtime to hardware problems.

Our chosen hardware not only works seamlessly with our software but more so withstands the harsh environments of the hospitality industry.

By choosing Bluefrog POS as your point of sale system, you can not only depend on our software keeping up with your pace, but more so the hardware being as reliable you would expect. And in the event that a technical problem does occur, you can be rest assured our dedicated support phone line and a rapid response call out service is always at hand. That's our guarantee to you!
