

## Bluefrog POS Software Features

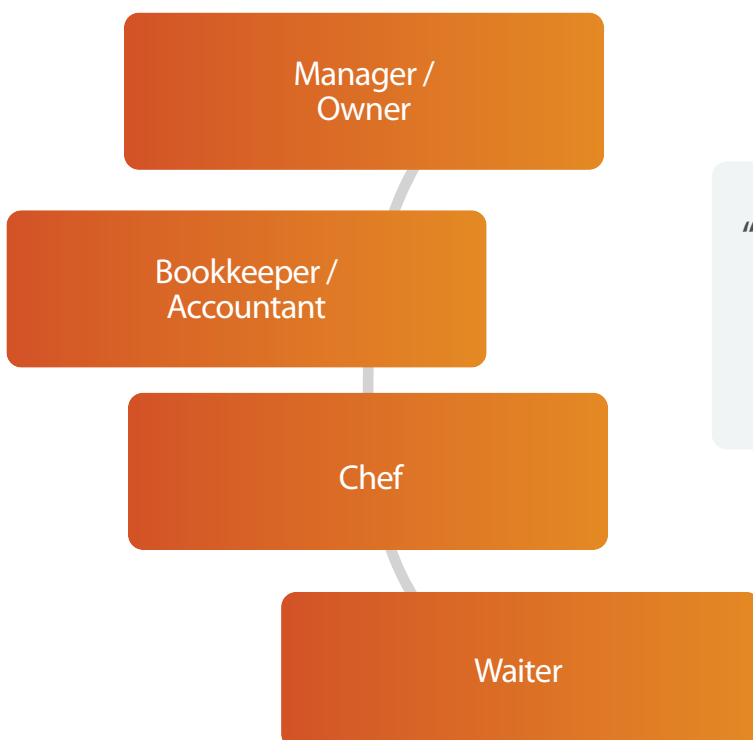

There are many aspects to a hospitality business, but most importantly are the people behind it that make it all come together. From the Owner and Manager, to the Waiters and Chefs, right through to the bookkeeper and accountant; each one of them contributing to making a business run more efficiently.

With Bluefrog POS, we've ensured that everybody's considered!

Through our extensive research and development in the hospitality industry we have included specific POS software features for all to use ensuring your business runs as efficient as possible.

We pride ourselves in providing you with a sophisticated system and superior after sales service that ensures smooth running of your business at all times.

Visit our website to see our video demonstrations showcasing just some of the features you can benefit from.
